Subject: Donlin Agency Scoping Meeting February 6th 1-5

Hi Sally,

The Donlin Cooperating Agencies will be meeting for an afternoon on February 6th. This is an opportunity to get an overview of the Donlin project from the applicant (a nice refresher for folks who haven't heard it in a while) and then we will go into discussions about preliminary scoping comments from the various agencies. The meeting will be held out at the BLM Cambell Creek Science Center (most likely) and is a great opportunity for Mahri to come listen. All of the EPA team on this project will be there in person or on the phone. I will be going to share my questions on issues related to my subject expertise (tribal - EJ, Subsistence, TEK, etc). I know Mahri has something else going on that day but even participating for the first hour or so would be good b/c that is when Donlin would be doing their project overview presentation.

For this meeting I am only recommending Mahri as I see her as my back up on this project and she is the TC working with the tribes that are the closest to the project, as well as the TC who works with the tribal governments (and watershed council) that have signed on as Cooperating Agencies.

Thanks! Tami
